

Meicen W-Series Wing Board

MC-WBF001 T-Grip Carbon Fiber

MC-WBF002 U-Grip Carbon Fiber

- The Meicen Wing Board is integrally formed with high-quality carbon fiber material, which is durable and lightweight.
- It's easy to use with Vacuum Cushion greatly improves the comfort of the patient's treatment and the accuracy of positioning.
- The patient's arm is raised to maintain a grasping state, which can improve the stability and accuracy of the patient's immobilization.
- The Meicen Wing Board can be used alone, or in conjunction with the Meicen C & Y-Series Baseplates, S-Series SBRT Solution and Supine Breast Board.
